ABOUT US

In a world where automation is advancing further into every aspect of day-to-day life, whether it be through our phones, watches, lighting, or HVAC systems, relying on smart technology is becoming less of a luxury and more essential to sustaining our ever-evolving lifestyles.

If you are looking for products to improve your home's style, efficiency, and comfort for a smarter life, you have come to the right place! Introducing Carro, an award-winning smart technology company that offers a variety of innovative products necessary for experiencing a smart home.

All Carro smart ceiling fans are ETL and UL-certified to ensure safe and long-lasting performance. Alongside convenience, our energy-efficient products meet high Energy-Star ratings and certifications to help conserve energy while lowering the costs of electricity usage when implemented in the home.

Carro has a wide selection of products, including multifunctional smart ceiling fans, elegant lighting varieties such as pendant lights and table lamps, a patented Smart Switch, and many more accessories to create a comfortable and functioning home for your Smart Life.

AC

What is a AC motor?

What is a AC motor? AC (Alternating Current) motors are a stable and silent power source for many household appliances, including ceiling fans. Using an Alternating Current that revolves around a magnetic field, AC motors rotate at a synchronous speed for cooling and comfortable airflow options. Because AC motors are a trusted and widely used power source for ceiling fans, AC motor fans are available in a wide selection of designs and affordable price points. Most homes are equipped with the required wiring for AC fans, making the installation process quick and effortless. CARRO's premium AC motor ceiling fans offer 3-speed settings, reversible airflow options, and a stable and silent breeze for optimal comfort in any space.

DC

What is a DC motor?

What is a DC Motor? DC (Direct Current) motors have revolutionized the performance and design of modern ceiling fans. Powered by a Direct Current, DC motors feature high-startup power and torque while consuming less energy, perfect for keeping your space cool and energy spending low. Because DC motors are much more compact than traditional AC motors, the ceiling fan size and style options are endless! Installation and maintenance are simple; each CARRO DC ceiling fan features an AC adapter that eliminates the need to connect messy and complicated wiring. Designed for faster response times, 10-speed settings, smartphone and voice control options, unrivaled air velocities, and whisper-quiet airflow, CARRO DC ceiling fans are the best option to help keep your Smart Life in Motion.

Selecting the Ideal Ceiling Fan Size for Your Space

Data for reference only Specifics may vary based on the Space:

ROOM SIZE:

Up to 100 sq.ft.

BLADE SWEEP:

42" to 52"

ROOM SIZE:

Up to 300 sq.ft.

BLADE SWEEP:

52" to 56"

ROOM SIZE:

Over 300 sq.ft.

BLADE SWEEP:

56" to 60"

REMOTE

The remote has all fan functions and comes with a wall mount bracket.

- Adjust fan speed, reverse fan direction, light functions (on/off/dimmer), natural breeze mode.

- Requires 2 AAA batteries (not included).

WALL CONTROL(DC)

The CARRO wall control works with all CARRO DC motor ceiling fans, providing a range of design options to suit diverse interior decor styles.

The CARRO hard-wired wall control presents a comprehensive set of features, incorporating a five-speed setting to maximize airflow, the flexibility to switch between forward and reverse fan directions for optimal air circulation, and effortless control over lighting settings, allowing for seamless adjustments in turning the lights on/off and dimming them as desired.

LED LIGHT KIT

LED light kit used for CARRO smart ceiling fans. Fit for 52", 56" & 60".

LED Kit: 36-Watt / 3000 Lumens / 2700K-4000K Color Temperature

ADAPTER

Adapter for all models

- Input: 100-240V~1.5A, 50/60Hz
- Output: 24V=2.0A

CEILING FAN SMART SWITCH

Easy Setup on Carro App

Operation

SMART CONNECTION

Easy Setup on Carro App

- Note: The fan is OFF when the fan indicator light is GREEN.
The fan is ON when the fan indicator light is RED.
The switch is READY TO PAIR with the App when the fan indicator light is BLINKING.
- If you are unable to pair the switch with the App, press and hold "OFF" button for 8 seconds until the LEDs start blinking slowly. Then, pair the switch with the App again.
- Choose the AP mode to improve Wi-Fi connection when necessary.
Cleaning Tip: Use a damp cloth, DO NOT use chemical cleaners.

Experience the Power of Sustainability

Save energy and money with CARRO DC motor fans that are up to 75% more efficient than traditional AC motor fans.

Whisper-quiet motor

Enjoy powerful, silent, and energy-efficient airflow for comfortable cooling in the quietest environments.

High performance LED light

Our high-performance LED light kits offer more than 50,000 hours of fully dimmable lighting with adjustable Cool and Warm light temperatures.

Reversible

Change the direction of your fan from downdraft mode during the summer to updraft mode during the winter for year-round comfort.

Timer

Set a convenient timer to have your fan automatically shut off after 1 to 8 hours.

Mode

Select from pre-set Normal, Nature, and Sleep modes for the ideal breeze each time.

Schedule

Schedule your fan to automatically turn on to precise settings at exact times for seamless integration with your daily routine.

Cutting Edge Technology

CARRO smart ceiling fans feature cutting-edge motor technology to deliver ultra-powerful and high-velocity airflow for comfort in any space. Thanks to the versatile LED light kits and advanced control features, you can also pre-set and customize your light temperature, brightness, fan speed, and airflow direction.

SMART FUNCTION

Amazon Alexa

At Carro, we constantly introduce new features that allow our customers to experience the latest technology, like voice control! Ask Amazon Echo, Echo Dot, or any Alexa-enabled device to turn your fan and light on and off, change the fan speed, or dim the lights.

Google Assistant

Talk to Google Assistant and easily adjust your Carro fan settings. All it takes is a simple command:

- "Hey Google, turn on my bedroom ceiling fan."
- "Ok Google, turn the ceiling fan to Speed 3."
- "Hey Google, dim the lights to 50%."

Remote Control

The CARRO remote control is universally compatible with all CARRO Smart Ceiling fans. Designed with simplicity and intuitiveness in mind, our remote offers multiple control settings while remaining easy to use. For added convenience, it comes with a wall bracket for straightforward installation.

- Modify the fan speed, alter the fan's direction, toggle between pre-set Nature and Sleep modes, control the light's on/off function, adjust brightness levels, and even change the light's color temperature.
- Swiftly and effortlessly sync the remote control with our CARRO fan. The remote operates with 2 x AAA batteries (not included), ensuring a convenient setup process.

Siri Shortcuts

Siri Shortcuts lets you easily control, adjust, and schedule your CARRO ceiling fan to your exact preferences, all with just a tap or voice command. Look for the "Add to Siri" button on the Carro Home App.

Wall Control

The CARRO wall control works with all CARRO DC motor ceiling fans, providing a range of design options to suit diverse interior decor styles.

The CARRO hard-wired wall control presents a comprehensive set of features, incorporating a five-speed setting to maximize airflow, the flexibility to switch between forward and reverse fan directions for optimal air circulation, and effortless control over lighting settings, allowing for seamless adjustments in turning the lights on/off and dimming them as desired.

CARRO Home App

Elevate your Smart Life experience with our innovative CARRO App, available for direct download from the Android or iOS App Store.

Key features of the CARRO App include:

- Smartphone Control: Manage and adjust your fan settings from anywhere, at any time, providing remote access even when you're away from home.
- Simultaneous & Group Control: Effortlessly control multiple smart ceiling fans through a single, user-friendly application.
- Advanced Features: Utilize advanced timer and scheduling settings to automate your home's temperature and lighting, enhancing your overall comfort.
- Device Sharing: Share access and control of your smart ceiling fan devices with family members, fostering a seamless home environment.
- 5-Seamless Connection: Easily and swiftly connect the CARRO App to your ceiling fan, ensuring a hassle-free setup process.
